

Annual Report from CPD25 2006/07

1. Events programme

The events programme continues to be successful with attendance levels similar to those of last year. The Library in the Interactive Environment conference held in April has attracted a good deal of attention and speakers have been invited to contribute papers to the New Review of Information Networking to be published later this year with an editorial by Janet Smith whose Task group organised this event.

2. Task Groups and Steering Group

These met regularly, coming together for an annual planning day in the spring.

3. Chartership work placement/exchange scheme

This scheme offering brokerage for work exchanges for CILIP chartership candidates has not attracted significant interest. CPD25 is reviewing the future of this scheme.

4. CILIP Seal of Recognition

CILIP launched a new Seal of Recognition in October 2006. This is a quality award intended to recognise training programmes which meet specific criteria and standards. Under the scheme training providers can apply for recognition of specific courses or for the programme as whole. The application included the submission of evidence to demonstrate that required criteria are met. Approval lasts for 3 years before a further application is required

CPD25 has been successful in its application for the CILIP Seal of Recognition for high quality professional development programmes. The logo is now being used in CPD25 publicity materials and the web. The M25 was the first academic consortium to gain this award.

5. CPD25 Travel Award

Coral Black, Head of Public Services at London University Research Library Services staff from the consortium won the travel award to attend the IFLA satellite conference on "CPD pathways to leadership in the library and information world" Johannesburg, South Africa. August 2007. She will report back on the conference to a future CPD25 meeting

6. CPD25 survey of staff development

CPD25 last conducted survey in 2004 to a limited group of academic LIS consortia. This has been updated and will be extended and launched online nationally to the SCONUL list in the summer term.
